

Attendance Data Management System (ADMS)

ABAC Technologies Ltd.

The attendance Data Management system we have developed would mainly function to facilitate the general employee attendance management system.

We have designed this system to consolidate attendance data from various sources and to produce reports as needed.

Distinguishing nature of information:

We basically have developed a system that would keep record on each particular employee's attendance of an organization.

We have given much of our emphasis to develop the system based on discrete information on every single employees of the organization. In order to maintain the distinct nature of the information, we have used three basic slots for each employee: employee name, employee ID and the card number.

Employee

Employee ID: Employee Name:

Card No: Active

EmpId	Name	StatusName	CardNo
101	Mam...	Active	101
102	Ano...	Active	102
103	Sk.A...	Active	103
104	Cha...	Active	104
105	Abd...	Active	105
106	Md...	Active	106
107	Abd...	Active	107
218	Sum...	Active	218
509	Moh...	Active	509
511	Raji...	Inactive	511
512	Amz...	Active	512

Information accuracy:

In order to make the report more accurate we have designed the system that would generate the exact entrance and exit time of each employee by displaying the attendance date and current status at the same time. Information on a particular date will automatically be saved in a distinguishable file immediately.

Attendance Date: Sunday, March 18, 2012

E:\VS_Projects\AttendanceSolution\Atte Browse File Upload & View View

EmpId	Name	AttDate	InTime	OutTime	Status
101	Ma...				Absent
102	Ano...				Absent
103	Sk...	3/18/2012	08:44:41		Present
104	Cha...	3/18/2012	09:04:09		Present
105	Abd...	3/18/2012	09:17:40		Present
106	Md...	3/18/2012	15:20:51		Present
107	Abd...	3/18/2012	08:44:06		Present
218	Sum...	3/18/2012	09:04:03		Present
509	Moh...				Absent
511	Raji...				Absent
512	Amz...				Absent
515	Nur ...				Absent

* Additionally, there shall be an option to provide attendance manually.

Manual Attendance

Employee ID:

Date From: 25/07/2012 Date To: 25/07/2012

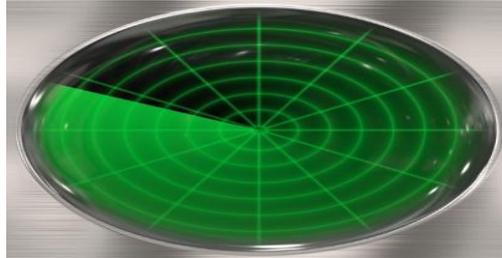

Office In-Time: 9:00:00 AM Office Out-Time: 6:15:00 PM

Status: Present Absent

Remarks:

Save

Exclusivity:

- * 'Flexibility' and 'Competence' are the key areas in which ABAC Technologies Ltd is actually focusing into. In this respect, our system would enable the user to generate attendance data in different formats of data source file like: Text, CSB, and MS Excel.

Daily Attendance Report

Date: 18 March, 2012

Sl. No.	Emp. ID	Name	In Time	Out Time	Status	Remarks
1	101	[REDACTED]			Absent	
2	102	[REDACTED]			Absent
